

When a homeowner in the Golden area returned home on October 23, 2009, he discovered that his front door window had been broken and seven of his firearms had been stolen.

The front door had a steel reinforced glass top and was broken inward. The front steps were made from concrete blocks and one had been moved from its original location.

Inside the house a gun case had the right door opened and the cabinet was empty. The deputy dusted for fingerprints.

Outside the front door area were tire tracks that the owner stated had not been there before. One set of tracks appeared to have come from some type of ATV and the other set appeared to be from a short wheel base pickup or car.

Firearms stolen:

- SKS semi auto rifle with scope
- Marlin/Glenfield 30-30 lever action rifle
- Stevens .22 single shot
- Remington .410 pump shotgun
- Mauser 8 mm bolt action rifle
- Remington .270 cal semi-auto rifle with scope
- Srpingfield 22 Mag bolt action rifle
